Disposable Pressure Transducer

Order Information

Existing Model	New Model(REF)	Type of Cable Connector	Number of Channel
FT-V001	/	Abbott	Single Channel
FT-A001	FT-A001	Abbott	Single Channel
	FT- A001B	BD	Single Channel
	FT- A001Y	Utah	Single Channel
	FT- A001E	Edwards	Single Channel
	FT- A001R	B. BRAUN	Single Channel
	FT- A001P	PVB	Single Channel
	FT- A001U	USB	Single Channel
	FT- A001M	Medex	Single Channel
	FT- A001C	Mindray	Single Channel
/	FT- A 102	Abbott	Double Channel
	FT- A 102B	BD	Double Channel
	FT- A 102Y	Utah	Double Channel
	FT- A 102E	Edwards	Double Channel
	FT- A 102R	B. BRAUN	Double Channel
	FT- A 102P	PVB	Double Channel
	FT- A 102U	USB	Double Channel
	FT- A 102M	Medex	Double Channel
	FT- A 102C	Mindray	Double Channel
	FT-A103	Abbott	Triple Channel
	FT-A103B	BD	Triple Channel
	FT-A103Y	Utah	Triple Channel
	FT-A103E	Edwards	Triple Channel
	FT-A103R	B. BRAUN	Triple Channel
	FT-A103P	PVB	Triple Channel
	FT-A103U	USB	Triple Channel
	FT-A103M	Medex	Triple Channel
	FT-A103C	Mindray	Triple Channel
	FPT-011A	Abbott	Single Channel with Needlefree Sampling Site
	FPT-012A	Abbott	Single Channel with Normal Sampling Site
	FPT-021A	Abbott	Double Channel with Needlefree Sampling Site
/	FPT-022A	Abbott	Double Channel with Normal Sampling Site
	FPT-031A	Abbott	Triple Channel with Needlefree Sampling Site
	FPT-032A	Abbott	Triple Channel with Normal Sampling Site
	FPT-011B	BD	Single Channel with Needlefree Sampling Site
	FPT-012B	BD	Single Channel with Normal Sampling Site
	FPT-021B	BD	Double Channel with Needlefree Sampling Site
	FPT-022B	BD	Double Channel with Normal Sampling Site
	FPT-031B	BD	Triple Channel with Needlefree Sampling Site
	FPT-032B	BD	Triple Channel with Normal Sampling Site
	FPT-011Y	Utah	Single Channel with Needlefree Sampling Site
	FPT-012Y	Utah	Single Channel with Normal Sampling Site
	FPT-021Y	Utah	Double Channel with Needlefree Sampling Site
	FPT-022Y	Utah	Double Channel with Normal Sampling Site
	FPT-031Y	Utah	Triple Channel with Needlefree Sampling Site
	FPT-032Y	Utah	Triple Channel with Normal Sampling Site
	FPT-011E	Edwards	Single Channel with Needlefree Sampling Site
	FPT-012E	Edwards	Single Channel with Normal Sampling Site
	FPT-021E	Edwards	Double Channel with Needlefree Sampling Site
	FPT-022E	Edwards	Double Channel with Normal Sampling Site
	FPT-031E	Edwards	Triple Channel with Needlefree Sampling Site
	FPT-032E	Edwards	Triple Channel with Normal Sampling Site
	FPT-011R	B. BRAUN	Single Channel with Needlefree Sampling Site
	FPT-012R	B. BRAUN	Single Channel with Normal Sampling Site
	FPT-021R	B. BRAUN	Double Channel with Needlefree Sampling Site
	FPT-022R	B. BRAUN	Double Channel with Normal Sampling Site
	FPT-031R	B. BRAUN	Triple Channel with Needlefree Sampling Site
	FPT-032R	B. BRAUN	Triple Channel with Normal Sampling Site

DISPOSABLE PRESSURE TRANSDUCER

DISPOSABLE PRESSURE TRANSDUCER

Disposable Pressure Transducer and its accessories are consisted of medical grade high polymer material and possess advanced biological compatibility, its unique structure and configuration guarantee the product's safety and reliability.

Safety in Use:

- Closed system design reduces the risk of infection of operators.
- Accurate substantial design helps to avoid risk of leaking.

- Needle-free blood sample collecting system helps to avoid stabbing and cross infection.
- Visualization-integration system design simplifys the product initializing and bubble eliminating process.

Arterial	Arterial
CVP	CVP
PA	PA
LAP	LAP

Applications:

- Central venous pressure and other various physiological pressure monitoring;
- Blood sampling;
- Neonatus pressure monitoring

FLUSHING VALVE

Features:

- For fast flushing and continuous flushing;
- The integrated structure is simple and easy to operate;
- Laser forming micro holes ensure flow stability.

Application:

- Suitable for invasive blood pressure transducer.
- Sensitive chip, accurate data transfer.
- Various connectors available.
